

Contributors: Allison Schuliger, Madison Braile, Shruti Atitkar, and Emma Davis

Our Groups Website is titled Food for Thought. This website acts as a resource for college students to find easy recipes for their tight schedules and low budget. The website contains a total of seven pages including a home page, five organized content pages, and a comments page. The content pages are labeled Breakfast, Appetizers, Lunch, Entrees, and Desserts. Each page has plenty of recipes for users to choose from with images, yield, estimated preparation time, and a star rating. Each recipe is linked to the original source website where users can follow the original publisher's instructions. The website also has a comments page where users can leave their email with any feedback or comments they may have.
